CHICAGO, July 17.—(By the Associated Press)—Peace prospects in the railroad strike were dimmed today by the additions of approximately 100,-000 men to the forces of the strikers. Negotiations for a settlement were temporarily at a standstill, with napositive Indication as to the right move, or its possible result.

By many, it is believed that the nation this week will meet the major industrial crisis of its history.

Seventy-five thousand maintenance of way workers in New York switching area were scheduled to leave their posts in answer to a regional strike call. To this number were added close to 10,000 oilers and stationary firemen, and engineers throughout the country. CHICAGO, July 17 - (By the Asso-

and engineers throughout the country, whose strike call last week fixed this morning as the hour for cessation of work. Clerks and freight handlers is various sections planned to leave their work.

wok in groups ranging from less than a hundred upward.

THURSDAY BIG DAY
Barring the unforseen, Thursday be expected to bring the first important development in the strike. On that day, President E. F. Grable of the development in the strike. On that day, President E. F. Grable of the maintenance of way unions will meet in Detroit with regional chairmen to fix the policy of the national organization in the dispute. With approximately 100,000 in the maintenance crafts involved, the ultimate result of the strike is regarded as bound up in the session. A determined offort to keep the men at work is forecast as Mr. Grable's part in the meeting, but with such a sentiment for the waltout as is evidenced by the suspension of the maintenance of way men in easi today the outcome of the conference in today the outcome of the conference is entirely conjectural.

FULL SITUATION
The pressure of fuel supplies in many sections is an aggravating factor in the industrial situation. Non-union coal which had been an adequate supply since April 1, to keep abreast of current consumption demands, has been shut off in many sections by the shortage of freight equipment due to the shopmen's strike.

Hopes for a ratiroad settlement at an early date, appeared to be based chiefly upon the attitude of Mr. Gra-ble, who came to Chicago today from Grub Now Being Served Washington, where, on Saturday, he hold a conference with President Harding. Mr Grable said he would confer with members of the railroad labor board in an effort to get support of an
